

Arrangements for the Termination of a Nuclear or Radiological Emergency

Working Session: Presentations

Purpose of the Presentation: To provide guidance for preparation of Working Group presentations

Objectives: To get familiar with how to prepare the presentation and what to cover

Duration: 160 minutes

Reference: Guide for lecturers and Guidance for WG presentations available in the training material.

Presentations

- Each WG should prepare a presentation to note the results and the progress made from Part 1 to Part 4 of the Working Session.
- Time allocated for preparing presentations: about **60 mins.**

Lecture notes:

Presentations should be prepared in PowerPoint the first hours on the last day (Day 4).

Presentations (cont'd)

- At 10:00, a representative of each WG will be asked to give a short presentation:
 - **15 mins** per WG + **5 mins** for discussion and questions.
- By 09:50, the presentations should be provided to the IAEA staff.

Contents of the presentation

- **The termination considerations associated with the assigned scenarios:**
 - The exposure situation likely to follow the transition phase;
 - The activities and actions that need to be undertaken in order to terminate the emergency (taking account of the primary objective and prerequisites for termination) and the responsible organizations that need to be involved;
 - The interested parties identified to be consulted and when and how this consultation is expected to take place;
 - The infrastructure and other arrangements to be made at the preparedness stage for the transition phase.
- **How the ideas of the group have evolved over the course of the Workshop.**

Good luck!

Lecture notes:

Thank you!
