Training Module Feedback Form

Your feedback is important. It provides us with information we need to continually improve and helps us to design training that best fits your needs. We appreciate you taking the time to do this.

Instructions: Please rate each <u>module</u>. The descriptions of the ratings are *somewhat* subjective; however, please give your honest impression of the module. Feel free to consider the quality of the teaching materials, the quality and knowledge of the instructor and the time allocated for the activity.

Please add any written comments at the end of this form (use additional sheets as necessary). Indicate which module and/or instructor you are commenting on. Provide any other feedback as you see fit.

At the bottom of each page, you will note that there is space to include your contact information. THIS IS NOT MANDATORY. The importance of feedback is that it represents your frank opinion about the workshop.
